WHAT TO WEAR FOR WOMEN

- V-necklines can be flattering for women in a headshot, as they can elongate the neck and draw attention to the face. However, be mindful of how low-cut the neckline is, as you want to maintain a professional image. Choose clothing that fits well and flatters your body shape. Avoid anything too tight or too loose.
- Solid colors are generally the best choice for headshots. Neutral colors like black, white, gray, and beige are all good options, as are muted tones like navy, olive, and burgundy.
- For women, a simple blouse or dress with a modest neckline is a good choice. Avoid anything too revealing or flashy.

- Closed-toe shoes are a good choice for women in a headshot, as they can add a polished and professional touch to the overall look. Avoid open-toe shoes or sandals, which can be too casual for a headshot.
- As with clothing, keep jewelry and accessories to a minimum. A simple necklace or stud earrings are fine, but avoid anything too large or distracting.
- If you're unsure about what to wear, consider bringing a few different options to the session and have Meghann help you choose the best one.

By following these guidelines, women can ensure that they look polished and professional in their headshot. The key is to choose simple, classic pieces that are tailored to fit well and flatter the body.

WHAT TO WEAR FOR MEN

- Solid colors are generally the best choice for headshots, but subtle patterns like pinstripes or checks can work as well.
- Choose clothing that fits well and flatters your body shape. A tailored suit or blazer is a good choice, but a simple dress shirt and tie can also work well.
- Accessories should be kept to a minimum. A simple watch or wedding ring is fine, but avoid anything too flashy or distracting.

- A clean and fresh haircut is important for a professional headshot. Make sure to get a haircut at least a few days before the session to allow time for any adjustments or touch-ups.
- Make sure to trim nose and ear hair before the session. These small details can make a big difference in the final result of the headshot.
- Men should wear a simple tie and a jacket that buttons for their headshot. Avoid loud patterns or flashy colors, as well as any clothing with logos or branding.

By following these guidelines, men can ensure that they look polished and professional in their headshot. The key is to choose simple, classic pieces that fit well and flatter the body, and to pay attention to small details like hair and grooming.

MEET ALEX

When it comes to creating a polished and professional look for your headshots, the right makeup can make all the difference. That's why we're thrilled to work with Alex, our go-to solo makeup artist for all of our headshot sessions.

Alex is a highly skilled makeup artist with years of experience in the industry. One of the things we love about working with Alex is her commitment to using high-quality, professional-grade makeup products. She only uses the best products to create a flawless, long-lasting look that will stand up to the camera's scrutiny.

Another thing that sets Alex apart is her personalized approach to makeup. She takes the time to get to know each client's unique needs and preferences, and works closely with them to create a look that is both professional and flattering. Whether you're looking for a natural, understated look or something more dramatic and eye-catching, Alex can help you achieve the perfect look for your headshot session.

Alex understands that every face is different, and she has the skills and expertise to work with a wide range of skin types, tones, and textures. From covering blemishes and evening out skin tone to highlighting your best features and bringing out your inner glow, she knows just how to make you look and feel your best in front of the camera.
